Since the resolutions set out in this Notice are being conducted through e-voting, the said resolutions will not be decided on show of hands at the AGM in terms of Section 107 of the Companies Act, 2013.
- 33. E-voting rights cannot be exercised by a proxy, though corporate and institutional shareholders shall be entitled to vote through their authorized representatives with proof of their authorization.

#### THE INSTRUCTIONS FOR SHAREHOLDERS VOTING ELECTRONICALLY ARE AS UNDER:

- Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.
- Step 2: Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode
- Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode
  - i. The voting period begins on **Saturday, 27th September, 2025 (9:00 a.m. IST) and ends on Monday, 29th September, 2025 (5:00 p.m. IST).** During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of 23rd September, 2025 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter. Shareholders who have already voted prior to the meeting date would not be entitled to vote on the date of meeting.
  - ii. The shareholders should log on to the e-voting website www.evotingindia.com.
  - iii. Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.
    - Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and

passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

iv. In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

#### ITEM NO: 5

### TO MAKE INVESTMENTS, GIVE LOANS, GUARANTEES AND SECURITY IN EXCESS OF LIMITS SPECIFIED UNDER SECTION 186 OF THE COMPANIES ACT, 2013

Pursuant to the provisions of Section 186(2) of the Companies Act, 2013 ('Act'), the Company shall not directly or indirectly: - (a) give any loan to any person or other body corporate; (b) give any guarantee or provide security in connection with a loan to any other body corporate or person; and (c) acquire by way of subscription, purchase or otherwise, the securities of any other body corporate, exceeding sixty percent of its paid-up share capital, free reserves and securities premium account or one hundred percent of its free reserves and securities premium account, whichever is higher.

CIN: L24239HR1984PLC040797

Pursuant to the provisions of Section 186 (3) of the 'Act', where the giving of any loan or guarantee or providing any security or the acquisition of securities exceeds the limits specified in Section 186 (2) of the 'Act', prior approval by means of a Special Resolution passed at a General Meeting is necessary. In terms of Rule No.11 (1) of the Companies (Meeting of Board and its Powers) Rules ('Rules'), where a loan or guarantee is given or security has been provided by a company to its wholly-owned subsidiary or a joint venture, or acquisition is made by a holding company, by way of subscription of securities of its wholly-owned subsidiary, the requirement of Section 186 (3) of the 'Act' shall not apply, however it will be included for the purpose of overall limit. In line with the long term objectives of the Company and for expanding its business further, the Company may be required to give loans or guarantees or make investments in excess of the limits specified in Section 186 (2) of the 'Act'.

And accordingly, it is proposed to seek prior approval of Members vide an enabling Resolution to provide loans, guarantees and make investments up to a sum of Rs. 50 crore (Rupees Fifty Crore only) over and above the limits specified in Section 186 (2) of the 'Act' at any point of time.

The resolution is accordingly recommended for approval of the Members by way of a Special Resolution.

None of the Directors or Key Managerial Personnel of the Company and/or their relatives is concerned or interested, financially or otherwise, in the resolution set out at Item No. 5 of the Notice, except to the extent of their shareholding, if any.

#### ITEM NO 6 & 7

#### 6. MEMBERS APPROVAL FOR BORROWING UNDER SECTION 180 (1) (C) OF THE COMPANIES ACT, 2013

### 7. TO SEEK APPROVAL UNDER SECTION 180(1)(A) OF THE COMPANIES ACT, 2013 INTER ALIA FOR CREATION OF MORTGAGE OR CHARGE ON THE ASSETS, PROPERTIES OR UNDERTAKING(S) OF THE COMPANY

To support Company's business operations, the company requires funds and these funds are generally raised from various Banks and/or Financial Institutions and/or any other lending institutions and/or foreign lender and/or any other body corporate/entity/entities and/or authority/authorities and/or through suppliers credit, any other securities or instruments, such as floating rate notes, fixed rate notes, syndicated loans, debentures, commercial papers, short term loans or any other instruments etc. and/or through credit from of official agencies and/or by way of commercial borrowings from the private sector window of multilateral financial institution, either in rupees or in such other foreign currencies as may be permitted by law from time to time, which, together with the moneys already borrowed by the Company (apart from temporary loans obtained from the Company's bankers in the ordinary course of business) may exceed the aggregate of the paid-up capital and the free reserves of the Company. Hence it is proposed to increase the maximum borrowing limits upto Rs. 50 crore (Rupee Fifty Crore only).

In term of section 180(1)(c) of the Companies Act, 2013, the Board of Directors cannot borrow more than the aggregate amount of the paid-up capital of the Company and its free reserves at any one time except with the consent of the members of the Company obtained by mean of passing a special resolution in a general meeting.

Further, to secure the borrowing made by the Company, the company is generally asked to create charge on certain assets or whole of the undertaking of the Company. Section 180(1)(a) of the Companies Act, 2013 empowers the Board of Directors to sell, lease or otherwise dispose of the whole or substantially the whole of the undertaking of the Company subject to the approval of members in the general meeting, provided that the aggregate indebtedness secured by the assets of the Company does not exceed a sum of Rs. 50 crore (Rupees Fifty Crore only).

Hence, it proposed to seek necessary members approval to borrow money from any bank, financial institutions, bodies corporate or business associates or through permitted channel in excess of paid up capital and free reserves of the company by a sum not exceeding Rs. 50 Crore and creation of security through mortgage or pledge or hypothecation or otherwise or through combination for securing the limits as may be sanctioned by the lenders, for the loans to be

sanctioned by any one or more company's bankers and/or by any one or more persons, firms, bodies corporate, or financial institutions or banks, the Company would be required to secure all or any of the Current assets, moveable properties of the Company present and future.

#### ITEM NO8

### MEMBERS APPROVAL FOR GIVING LOAN AND GUARANTEE OR PROVIDING SECURITY IN CONNECTION WITH LOAN AVAILED BY ANY SPECIFIED PERSON UNDER SECTION 185 OF THE COMPANIES, ACT, 2013

As per the provisions of Section 185 of the Companies Act, 2013, no company shall, directly or indirectly, advance any loan including any loan represented by a book debt, business advance, advance for securing supplies of services/goods on a future date to any of its Directors or to any other person in whom the Director is interested or give any guarantee or provide any security in connection with any loan taken by him or such other person.

The management is of the view that the Company may be required to invest funds in joint ventures, strategic alliance and other entities in the normal course of its business, make business advances or otherwise, give guarantee or provide any security in connection with any loans/debentures/bonds etc. raised by its associate or wholly owned subsidiary or to any other body corporate(s) in which the Directors of the Company may be interested, as and when required.

Hence, as an abundant caution, the Board decided to seek approval of the shareholders pursuant to the provisions of Section 185 of the Act to advance any loan, including any loan represented by book debt, to its subsidiary company(ies) (Indian or overseas) or other body corporate(s) in whom any of the Directors of the Company is interested or to give guarantee or provide any security in connection with any loans/debentures/bonds etc. raised by its subsidiary company(ies) (Indian or overseas) or other body corporate(s) in whom any of the Directors of the Company is interested up to an aggregate amount of Rs. 50/- Crores (Rupees Fifty Crores only) approved by the shareholder of the Company under Section 185 of the Company Act, 2013.

The Board of Directors recommends resolution for approval of the members of the Company by way of passing a Special Resolution. None of the Directors or Key Managerial Personnel of the Company and/or their relatives is concerned or interested, financially or otherwise, in the resolution set out at Item No. 8 of the Notice, except to the extent of their shareholding, if any.

#### ITEM NO 9

### MEMBERS APPROVAL FOR RELATED PARTY TRANSACTIONS UNDER SECTION 188 OF THE COMPANIES ACT, 2013

To ensure continuous business operation without any interruption, approval of the shareholders is being sought, to enter into related party transaction(s) with related party(s) as defined under within the meaning of Section 2(76) of the Companies Act, 2013 and Regulation 2(1)(zb) of the SEBI Listing Regulations, to sell, lease property for an amount of Rs. 50 crore (Rupees Fifty Crores only) during Financial Year 2025-26.

#### **Background and Details of the Transaction:**

Cost effective and assured supply of construction materials/services of desired quality, is a key requirement for the Company. The Company intends to procure material from related party(s) to have consistent control over quality of the supplies. This transaction will not only help the Company to ensure wholesale and retail trading of business operations smoothly but also ensure consistent flow of desired quality and quantity of goods available for uninterrupted operations and business activities.

CIN: L24239HR1984PLC040797

Approval being sought for Financial Year 2025-26 as per the requirements of Regulation 23(4) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations'), all material related party transactions shall require the approval of Members through a Resolution. Further, the explanation to Regulation 23(1) of the SEBI Listing Regulations states that a transaction with a related party shall be considered material if the transaction(s) to be entered into individually or taken together with previous transactions during the financial year, exceeds 10% of the annual consolidated turnover of the Company as per the last audited financial statements of the Company. The estimated value of transaction with related party(s) for Financial Year 2025-26 will be Rs. 50 crore, which would breach the materiality threshold of 10% of the annual turnover of the Company as per last audited financial statements of FY 2024-25. Hence, to ensure uninterrupted operations of the Company, it is proposed to secure shareholders' approval for the related party contracts/ arrangements to be entered into with related party(s) during Financial Year 2025-26, as mentioned in item no. 9 of the Notice. For necessary information as required under Rule 15 of Companies (Meetings of Board and its Powers) Rules, 2014, members are requested to please refer AOC-2 and Note No. 32 of Audited Annual Accounts of the Company for the financial year ended March 31, 2025.

#### Detail(s) about Arm's Length Pricing/Ordinary Course of Business

The related party contract/transaction mentioned in this proposal meets the arm's length testing criteria and also qualifies as contract under ordinary course of business.

The said transactions have been recommended by the Audit Committee and Board of Directors of the Company for consideration and approval by the Members. None of the Directors and/or Key Managerial Personnel of the Company and/or their respective relatives are in anyway, except as mentioned above, is concerned or interested either directly or indirectly, in the Resolution mentioned at Item No. 9 of the Notice. The Board recommends the Ordinary Resolution set forth at Item No. 9 of the Notice for approval of the Members.

  - 5. Real Estate (Regulation and Development) Act, 2016.

For the compliances of Environmental Laws, Labour Laws & other General Laws, my examination and reporting is based on the documents, records and files as produced and shown to me and the information and explanations as provided to me, by the officers and management of the Company and to the best of our judgment and understanding of the applicability of the different enactments upon the Company, in my opinion there are systems and processes exist in the Company to monitor and ensure compliance with applicable Environmental Laws, Labour Laws & other General Laws. However, strengthening w.r.t timelines is advised.

The compliance by the Company of applicable Financial Laws, like Direct and Indirect Tax Laws, have not been reviewed in this audit since the same have been subject to review by the statutory auditor and other designated professionals.

## We have also examined compliance with the applicable clauses of the following:

- 1. Secretarial Standards with respect to Meetings of Board of Directors (SS-1) and General Meetings (SS-2) issued by the Institute of Company Secretaries of India. However, stricter adherence of Secretarial Standards is required to be observed.
- 2. Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ["SEBI (LODR), 2015"].

CIN: L24239HR1984PLC040797

3. General Circular's issued by the Ministry of Corporate Affairs to hold Extra-Ordinary General Meetings/Annual General Meetings through Video Conferencing (VC) or Other Audio-Visual Means (OAVM) and Circular No. SEBI/HO/CFD/CFD-PoD-2/P/CIR/2023/167 dated October 07, 2023 issued by the Securities and Exchange Board of India for dispensation of dispatching the physical copies of Annual Reports.

During the period under review, the Company had complied with the provisions of the Act, rules, regulations, guidelines, standards, etc. mentioned above subject to the following observations:

It has been observed that there have been a few delays in intimating and filing of intimations and results to Stock Exchange pursuant to SEBI (LODR) Regulations, 2015.

The Company had convened the Annual General Meeting for the Financial Year 2019-20 on April 09, 2021 which was beyond the due date as prescribed. However, as informed by the management, compounding of the said default is still under process and has not yet started.

Ms. Annu, Company Secretary and Compliance Officer resigned with effect from April 27, 2024 and Ms. Jyoti Verma was appointed as Company Secretary and Compliance Officer with effect from January 29, 2025. There has been a delay in appointing Company Secretary and Compliance Officer in terms of Regulation 6 of SEBI (LODR), 2015 read with Section 203 of the Companies Act, 2013.

During the reporting period; three subsidiaries (including step-down subsidiaries) were identified as material subsidiary on the basis of the financial statement for period ended on March 31, 2024. However, no compliance(s) with respect to the applicable provisions / regulations of the Companies Act, 2013 and SEBI (LODR), 2015 were observed.

I further report that A Provisional Attachment Order No. 09/2024, issued via email dated September 13, 2024 by the Deputy Director posted at the Gurugram Zonal Office, Directorate of Enforcement, New Delhi, against the Company. This order pertains to the provisional attachment of immovable properties held in the name of Company and demat account, vide reference number F. No. ECIR/GNZO/14/2024, dated September 05, 2024, and includes the attachment of shares held by the promoter of company and freezing the bank accounts of the Company. As per the information and clarifications provided to me, this order does not affect the business operations of the Company.

#### I further report that

The composition of Board of Directors and committees thereof of the Company was constituted during the reporting period. However, the re-appointment of Ms. Rajiv Kapur Kanika Kapur (DIN - 07154667), who was reappointed by the Board in the Board Meeting held on November 14, 2024, was not approved by the Members of the Company as no Extra-Ordinary general meeting was convened for approval of her re-appointment in terms of Regulation 17 of SEBI (LODR), 2015. Further, following changes in the composition of the Board took place during the reporting period:

- a. Mr. Manoj Kumar (DIN-08332775) was appointed as additional non-executive Independent Director of the Company in the Board Meeting held on April 11, 2024 Further, Shareholders, at their Extra ordinary general meeting held on May 08, 2024 regularised the said appointment.

- d. Mr. Raj Singh Poonia (DIN: 09615705) from the post of Chief Financial Officer (CFO) & Managing Director with effect from August 14, 2024.

## CIN: L24239HR1984PLC040797

- e. Mrs. Sehar Shamim (DIN: 09503621) was appointed as an Additional Non-Executive Director with effect from September 05, 2024. Further, members, at their annual general meeting held on September 30, 2024 regularised the said appointment.
- f. Mr. Ajay Kumar Thakur (DIN 10799462) was appointed as additional non-executive Director with effect from September 14, 2024 and was regularized and appointed as Managing Director of the Company in the Extra-Ordinary General Meeting held on February 27, 2025.
- g. Ms. Rajiv Kapur Kanika Kapur (DIN 07154667) was re-appointed as non-executive Independent Director for a term of five years with effect from January 30, 2025 in the Board Meeting held on November 14, 2024. However, the Company has not made any intimation to stock exchange pursuant to Regulation 30 of SEBI (LODR), 2015.

There are systems and processes in the company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

As per the records made available to us, the Company has generally filed the forms (with and without additional fees, wherever applicable), returns, documents and resolutions as were required to be filed with the Registrar of Companies and other authorities and the formalities relating to the same is generally in compliance with the Act, subject to the observation(s) in this report. However, clerical mistakes of both material and non-material nature were observed.

Adequate notice(s) were generally given to all directors to schedule the Board/Committee Meetings, agenda and detailed notes on agenda were generally sent in accordance with the applicable laws, as mentioned here above. However, stricter compliance for it shall be observed by the Company.

All the decision of the Board/its committee(s) were taken adequately with requisite majority, while the dissenting members' views, if any, were not captured and were not recorded as part of the minutes.

As informed by the management of the Company, the Annual Report required to be filed under section 21 of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 and the Rules there under has not been submitted by the Company. Further, as confirmed by the management of the Company and its officers there was no complaints filed by the employees before the Internal Committee.

The Government stepped spending on infrastructure projects to boost the economic growth had a positive impact on economic growth. The capital expenditure of the central government increased by an average of 26.52% during FY 2023-FY 2024 which slowed to 7.27% in FY 2025 which is expected to translate in moderating GDP growth of 6.5% in 2024. In the Union Budget 2025-2026, the government announced INR 11.21 billion capex on infrastructure (10.12% higher than previous year revised estimates) coupled with INR 1.5 trillion in interest-free loans to states. This has provided much-needed confidence to the private sector, and in turn, expected to attract the private investment.

#### Historical GDP and GVA Growth trend

As per the latest estimates, India's GDP at constant prices is estimated to grow to INR 187.95 trillion in FY 2025 (Second Advance Estimates) with the real GDP growth rates estimated to be 6.5% for FY 2025. Similarly, real Gross Value Added (GVA) growth stood at 7.2% in FY 2023, rose to 8.6% in FY 2024, and is expected to moderate to 6.4% in FY 2025. Even amidst global economic uncertainties, India's economy exhibited resilience supported by robust consumption and government spending.

# Some of the key factors that would propel India's economic growth in the coming years Government focus on infrastructure development

Infrastructure development has remained recurring theme in India's economic development. As India aims to

grow to a USD 5 trillion economy by 2027, Construction sector that include Infrastructure construction will be critical for boosting economic growth as it is the key growth enabler for several other sector. Infrastructure development provides impetus to other sectors like cement, bitumen, iron and steel, chemicals, bricks, paints, tiles, financial services among others. A unit increase in expenditure in construction sector has a multiplier effect on other sectors with a capacity to generate income as high as five times in other sectors. The sector enjoys intense focus from the Government which is well reflection in higher budgetary allocations.

## Development of Domestic Manufacturing Capability

The Government launched Production Linked Incentive (PLI) scheme in early 2020, initially aimed at improving domestic manufacturing capability in large scale electronic manufacturing and gradually extended to other sectors. At present it covers 14 sectors, ranging from medical devices to solar PV modules.

CIN: L24239HR1984PLC040797

## **Strong Domestic Demand**

Domestic demand has traditionally been one of the strong drivers of Indian economy. After a brief lull caused by Covid-19 pandemic, the domestic demand is recovering. Consumer confidence surveys by Reserve Bank / other institutions are points to an improvement in consumer confidence index, which is a precursor of improving demand.

#### **Construction Sector**

Construction sector is one of the major segments that drives an economy. Construction projects are often categorized based on their scale, the types of structures being built, and the purpose of the project. The sector is broadly divided into real estate construction, Industrial, and Civil & infrastructure construction. According to the "Harmonized Master List of Infrastructure Sub-sectors" published by the Ministry of Finance, Infrastructure segment is segmented as transport and logistics segment and Social and Commercial Infrastructure.

Construction sector is one of the major segments that drives an economy. A unit increase in expenditure in construction sector has a multiplier effect on other sectors with a capacity to generate income as high as five times in other sectors. Growth in the number of construction projects creates as well as strengthens the demand for a myriad range of products and services. These include project management services, EPC/EPCM services and architecture consulting services, to name a few.

## **EPC Contract**

EPC stands for Engineering, Procurement, Construction and is a prominent form of contracting agreement in the construction industry. Companies that deliver EPC Projects are commonly referred to as EPC Contractors.

Today, EPC contracting is the most sought method of executing projects globally. EPC is a contract under which the project is executed under a single point responsibility of a contractor. EPC contracts are pivotal agreements in the construction industry, designed to streamline project execution by transferring substantial project risks from the owner to the contractor. These contracts encompass the full scope of project responsibilities, including design, procurement, and construction, ensuring a single point of accountability for the project's completion. The primary appeal of EPC contracts lies in their ability to provide cost certainty, making them particularly attractive to developers who lack the financial or technical resources to manage unexpected expenses and project intricacies. By transferring risks associated with workplace accidents, labour and material shortages, and critical schedule milestones, developers can mitigate potential disruptions and focus on other strategic priorities.

One of the significant advantages of EPC contracts is the reduced level of engagement required from developers. This hands-off approach allows developers to save on time, labour, and resources, relying on the contractor to meet project deadlines and specifications. Establishing clear design and construction standards before entering an EPC contract can further enhance project outcomes by ensuring consistency and quality while minimizing the need for developer intervention. However, the transfer of all project risks to the contractor can come at a premium cost. Contractors must account for all known and unknown contingencies, which can significantly inflate the contract price. To strike a balance, developers may negotiate shared responsibilities for unforeseen circumstances, such as fluctuating material costs, thereby achieving better financial terms and fostering a more cooperative relationship with the contractor.

# NEWTIME INFRASTRUCTURE LIMITED

Third-party reviews of EPC designs are highly recommended for developers lacking in-house expertise or bandwidth. Engaging an independent engineering firm to assess the contractor's designs can safeguard the developer's interests and ensure that the final project aligns with the specified requirements. These reviews are particularly crucial when millions of dollars are at stake, offering an additional layer of oversight and assurance. It is important to note that EPC contracts can alter the dynamics between developers and contractors. The contractual focus on financial transactions and risk management can strain relationships, particularly if there were pre-existing collaborative ties. Developers must be mindful of this potential shift and consider limiting the use of EPC contracts to specific project types where the benefits outweigh the relational costs. In addition to traditional EPC contracts, developers might explore alternative models such as Cost-Plus contracts and Hybrid EPC contracts. Cost-Plus contracts allow developers to maintain greater involvement and oversight, reimbursing contractors for project costs plus a percentage for overhead and profit. Hybrid EPC contracts offer a blend of flexibility and fixed pricing, with the initial stages of the project managed on a time-and-material basis before transitioning to a fixed-price arrangement.

## **Types of EPC Contracts**

**Lump Sum EPC Contract**: In this model, the contractor commits to completing the project for a fixed price. This contract type is typically employed for projects with well-defined scopes and timelines, facilitating straightforward cost and budget management. For instance, a residential complex construction project might use a lump sum contract to ensure cost certainty for the developer.

**Unit Price EPC Contract:** This arrangement involves pricing based on the actual units of work completed. It is particularly suited for projects where the scope is uncertain, offering flexibility in pricing and resource allocation. Road construction projects are a common example of unit price contracts, as the quantity of materials required can vary depending on site conditions.

**Item Rate Contract**: It is also referred as a schedule contract, in this contract, the contractor undertakes the execution of work on an item rate basis. Under this contract, contractor quote the price of each item presented in BOQ (bill of quantities) presented by the client. The contractor receives the payment based on detailed measurements of different items of work actually done by him. The item rate contract is most used for all types

of engineering works financed by public or government bodies. This type of contract is suitable for works which can be split into various items and quantities under each item can be estimated with accuracy.

**Cost-Plus EPC Contract**: Under this contract, the contractor is reimbursed for actual costs incurred plus an agreed-upon fee. This model is advantageous for projects with undefined requirements, providing a safety net for contractors. It is especially useful in research and development projects where project specifications may evolve over time.

**Design and Build EPC Contract**: In this model, the contractor oversees both the design and construction phases of the project. This integrated approach can expedite project completion and enhance coordination between design and construction. Large-scale infrastructure projects, such as airports, often utilize this contract type to ensure seamless integration and timely delivery.

**Turnkey EPC Contract**: This comprehensive contract requires the contractor to deliver a fully operational facility to the client upon project completion. Common in sectors such as energy and water supply, the turnkey model ensures that the end product meets specific operational standards from the outset, providing a complete solution to the client.

## Percentage rate contract (PRC)

The percentage rate contract (PRC) execution model is a widely used method for awarding and managing road infrastructure projects in India and around the world. In a PRC contract, the contractor is paid a pre-determined percentage of the estimated cost of each item of work completed in the project. This estimated cost is established beforehand in a Bill of Quantities (BOQ), which details the quantities and rates for various materials, labor, and equipment required for each project stage. India remains the fastest-growing major economy, with projected GDP growth in the 6–6.5% range through FY 2025–26 and beyond. The 6.2% forecast for 2025–26 reflects global headwinds such as trade tensions and uncertain external demand. Nonetheless, strong domestic consumption, structural support a resilient growth trajectory. Furthermore, India's economic policy framework remains relatively insulated from external volatility due to a well-diversified economic structure, improving logistics and digital infrastructure, and growing emphasis on self-reliance ("Atmanirbhar Bharat"). These factors collectively help offset the impact of global trade tensions and monetary tightening in advanced economies.

India remains the fastest-growing large economy and IMF projections show that it could overtake Japan's this year to become the fourth largest in the world, at about USD 4.2 trillion. While risks persist—such as oil price volatility, monsoon variability, and global financial market instability—India's medium-term growth prospects remain resilient, underpinned by a favorable demographic dividend and sustained public and private investment. India's economy is likely to grow by 6.7 per cent in the current fiscal year that started in April and can realistically achieve 7-8 per cent expansion over the next decade and a half, having moved past a string of global crises in the recent years.

The Indian economy had grown at 6.5 per cent in 2024-25 (April 2024 to March 2025), down from 9.2 per cent in the previous year. However, there has been an uptick fueled by construction and manufacturing growth since the March quarter when the GDP growth at 7.4 per cent was faster than expected. This spending to spur consumption. While the Asian Development Bank pins FY26 growth at 6.7 per cent, the World Bank forecasts 6.3 per cent It is said that despite a series of global shocks in recent years, from the COVID-19 pandemic to geopolitical disruptions, India's economy remains resilient and positioned for robust growth.

It is believed that GDP will grow at 6.7 per cent for FY26, the strong performance rooted in services, rising mid-market investment, and improving agricultural productivity. While factors like trade can have an impact, but it would be limited to a short-term horizons, till such time deals are concluded.

The economy can rev up to 7-8 per cent over the next 10-15 years, India's predominantly service-driven economy remains largely unaffected by global trade challenges. While India is home to more than 50 per cent of the world's global capability centres (or GCCs), close to 67 per cent of

the Fortune 2000 companies do not have operations in India yet.

It is believed that India's Global Capability Centres are no longer peripheral support arms, but at the front and centre of global enterprise innovation, positioning the market as 'front office of the World'. India currently hosts nearly 1,800 GCCs, a number that can scale to 3,400-5,000 centres over the next few years, with the right policy environment, ecosystem support, and co-ordinated action. "Just step back and look at it, India's or every country has gone through some serious crisis in the last 5-6 years.

## CIN: L24239HR1984PLC040797

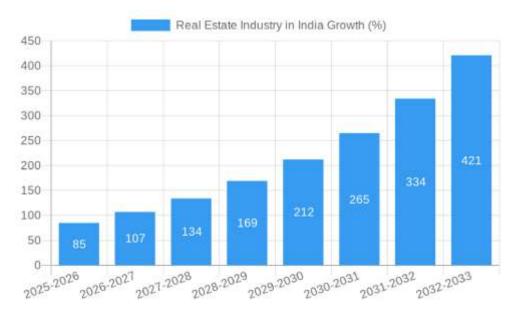

From COVID to trade to wars to all kinds of things. But India still remains at 6.5-6.6 growth. So, that is a clear indicator that India still has a lot of space to grow. The per capita income is at less than USD 2,800 but as it approaches USD 4,000, the consumption actually doubles, not merely rising by a third, signaling a disproportionately higher expansion. Meanwhile, sectors like manufacturing, semiconductors are slowly gaining traction, and agriculture productivity is looking up following good monsoon.

India's STEM-skilled workforce is beyond tier-2 cities and the talent is "astonishing". We still have more STEM skills than anybody else in the world. And what we see is not just the tier one cities, tier two cities...We now see tier three cities. Some of the talent coming in is astonishing...in that sense, weathering all these crisis, COVID crisis...So my views is we probably can still grow at 7-8 per cent over the next 10-15 years, adding this would be contingent on measures including boosting ease of doing business. The growth next year could be similar. "By FY30, We think we can actually push it up.

## 2. INDIAN REAL ESTATE MARKET ANALYSIS

The Indian real estate market is projected to experience robust growth driven by factors like rapid urbanization, increasing disposable incomes, and rising demand for residential and commercial properties. The real estate industry in India is Segmented by property type, including residential, commercial, industrial, and land, the market is further divided into sales and rental operations, operating through both online and offline modes to cater to diverse consumer preferences and enhance accessibility. Regional segmentation illustrates varied growth dynamics across different areas, emphasizing localized market conditions and opportunities. Key government initiatives, such as investments in smart city projects and tax exemptions, alongside environmental and regulatory concerns, shape sustainable practices within the sector. The burgeoning population fuels the demand for infrastructure, significantly impacting the real estate market size in India and driving the trend towards smart, sustainable projects. The competitive landscape remains dynamic, with continuous innovation aimed at meeting evolving market needs. The real estate sector includes various phases of property dealings, including developing, selling, buying, leasing, and management processes in the commercial sector, residential sector, etc.

CIN: L24239HR1984PLC040797

MEW IME

In India, the real estate sector is the second-highest employment generator, after the agriculture sector. It is also expected that this sector will incur more non-resident Indian (NRI) investment, both in the short term and the long term. Bengaluru is expected to be the most favoured property investment destination for NRIs, followed by Ahmedabad, Pune, Chennai, Goa, Delhi, and Dehradun. Retail, hospitality, and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

As the Indian real estate sector enters FY2025 - 26, a new wave of disruptions and directional shifts is reshaping the landscape. Rapid expansion of the middle class, evolving consumer aspirations, and strong economic fundamentals are driving this transformation, further accelerated by technology adoption, changing urbanization patterns, ESG imperatives and regulatory reforms. This evolving landscape is reshaping investor strategies and end-user preferences. Investors are pivoting towards future-ready, high-quality assets across diversified geographies, while end users are demanding smarter, more sustainable, and lifestyle driven spaces. This shift is redefining real estate value creation for the next growth cycle.

In 2025-26, the future of real estate will be designed by technology, sustainability and a rising India. Trends that are defining the industry's current landscape and future trajectory.

- **Rise of low-density housing:** The Indian real estate market is shifting towards low-density formats like villas, townhouses, and plotted developments. Homebuyers increasingly seek sustainable living options that offer isolation and harmony with nature, distancing themselves from urban noise and pollution. Developers are responding to this trend with open space-focused projects, while HNIs and ultra-HNIs are also showing a strong preference for premium, low-density projects.
- **Technology integration:** Technological integration is transforming the Indian real estate sector through AI and blockchain. It is also streamlining processes such as property transactions, legal verifications, and market analysis. Smart home features integrated with IoT are now standard, boosting energy efficiency and convenience. Digital tools are revolutionising how properties are bought, sold, experienced, and managed, enhancing transparency and user engagement.
- Increased preference for homeownership: Homeownership gained traction, supported by government incentives and hybrid work trends. The demand for larger homes in suburban and Tier 2 cities rose sharply. Changing demographics, a growing middle class and younger population entering the workforce have further fuelled demand. Emotional factors, such as the desire for asset creation and intergenerational wealth factors, further reinforced the cultural and economic shift towards owning homes.
- **Opportunities in REIT space:** The REIT market in India now represents over 9% of the total office stock across the top eight cities, underpinned by substantial institutional investment. Key drivers of the REIT growth include rapid urbanisation, expanding infrastructure, supportive regulatory frameworks, and investor-friendly policies such as lower minimum investment thresholds and the introduction of fractional ownership through SM REITs. Rising awareness among retail investors and new avenues for participation are further strengthening liquidity and expanding the potential of this emerging segment.
- **Emergence of rental housing and co-living:** Flexible living models are gaining ground, especially among younger professionals and migrant populations in urban centers. Co-living spaces and organised rental housing are expanding, driven by affordability pressures, lifestyle flexibility, and supportive policy frameworks like the Model Tenancy Act.
- **ESG and green real estate mainstreaming:** Sustainability imperatives are now central to real estate development. Institutional investors increasingly prefer ESG-compliant projects, while end users prioritise wellness, energy efficiency, and green certifications. Developers are embedding sustainable design and smart infrastructure as integral parts of new project offerings.

#### 4. OUTLOOK AND STRATEGY

- The Company has followed all legal and Regulatory Compliances requirement and has implemented all statutory requirements.
- Your Company believes that demand conditions in the real estate sector are exhibiting early signs of improvement, and signs of declining interest rates as well as renewed activity in the lending and public capital markets are expected to ease funding pressures. As your Company continues to build on its core business of real estate development and leasing, your Company believes that it is well placed to achieve its targets of reducing its overall indebtedness, executing its real estate development and leasing operations and taking advantage of a potential revival in economic growth and its resultant positive effects on the real estate sector. Expansions are required to be made in developing Shopping Complexes.
- The Company remains focused on growing the rental portfolio by capturing the organic growth potential along with new products across, both office and retail segments. The Company expects to maintain its growth trajectory and achieve double-digit growth in its portfolio through organic growth, coupled with new developments. The positive outlook towards the retail business has led to a development of new retail destinations and the Company expects to double its retail presence over the next few years
- Foreign institutional Investors have also shown confidence in the country's construction and are showing up investments in India. This is a positive sign and will open new areas of growth and development.
- The Company has followed all legal and Regulatory Compliances requirement and has implemented all statutory requirements.
- Your company are closely monitoring the continued consolidation among mid-sized developers and asset platforms, as it presents both competitive challenges and strategic opportunities for our growth.

## 5. GOVERNMENT INITIATIVES

Over the years, the Indian government has introduced many initiatives to strengthen the nation's economy. The Indian government has been effective in developing policies and programmes that are not only beneficial for citizens to improve their financial stability but also for the overall growth of the economy. Over recent decades, India's rapid economic growth has led to a substantial increase in its demand for exports. Besides this, a number of the government's flagship programmes, including Make in India, Start-up India, Digital India, the Smart City Mission, and the Atal Mission for Rejuvenation and Urban Transformation, are aimed at creating immense opportunities in India. In this regard, some of the initiatives taken by the government to improve the economic condition of the country are mentioned below:

- In July 2024, the Ministry of Finance held the Union Budget and announced that for 2024-25, the total receipts other than borrowings and the total expenditure are estimated at Rs. 32.07 lakh crore (US\$ 383.93 billion) and Rs. 48.21 lakh crore (US\$ 577.16 billion), respectively.
- In February 2024, the Finance Ministry announced the total expenditure in Interim 2024-25 estimated at Rs. 47,65,768 crore (US\$ 571.64 billion) of which total capital expenditure is Rs. 11,11,111 crore (US\$ 133.27 billion).
- On January 22, 2024, Prime Minister Mr. Narendra Modi announced the 'Pradhan Mantri Suryodaya Yojana'. Under this scheme, 1 crore households will receive rooftop solar installations.

## Road Ahead

In the second quarter of FY24, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2023. India's comparatively strong position in the external sector reflects the country's positive outlook for economic growth and rising employment rates. India ranked 5th

## CIN: L24239HR1984PLC040797

in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in 2023-24, stood 37.4% higher than the same period last

year. In the budget of 2024-25, capital expenditure took the lead by steeply increasing the capital expenditure outlay by 17.1 % to Rs.11 lakh crore (US\$ 133.51 billion) over Rs. 9.48 lakh crore (US\$ 113.91 billion) in 2023-24. Stronger revenue generation because of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

Since India's resilient growth despite the global pandemic, India's exports climbed at the second-highest rate

with a year-over-year (YoY) growth of 8.39% in merchandise exports and a 29.82% growth in service exports till April 2023. With a reduction in port congestion, supply networks are being restored. The CPI-C inflation reduction from June 2022 already reflects the impact. In September 2023 (Provisional), CPI-C inflation was 5.02%, down from 7.01% in June 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

Tax Reforms and Relief for Buyers and Developers 1:

- **Income Tax Changes:** The budget increased the income tax exemption limit to 12 lakh for the new tax regime, which will boost disposable income, especially for the middle class. This could lead to increased demand for residential properties as more people may afford to buy homes or invest in real estate.
- TDS (Tax Deducted at Source) Threshold: The TDS limit on rental income was raised from 2.4 lakh to 6 lakh. This simplifies tax processes for landlords and tenants and can encourage more rental transactions. The change will be particularly beneficial for residential landlords with smaller properties, making the rental market more active.
- Amend Affordable Housing Standards: The government has continued its focus on affordable housing with tax breaks and incentives for developers in this segment. This is expected to stimulate the construction of homes in the lower-income category and align with the Pradhan Mantri Awas Yojana (PMAY) objectives. First-time homebuyers can also benefit from interest rate subsidies and tax benefits. The existing definitions of affordable housing, determined by dimensions, cost, and purchaser income, need immediate re-evaluation. The size requirement of 60 sq. m. for carpet space is justifiable; nevertheless, the price limit of INR 45 lakh is impractical in high-cost urban centres such as Mumbai. The cap ought to be raised to a minimum of INR 85 lakh in Mumbai and INR 60-65 lakh in other metropolitan cities to align with local market conditions. These amendments would allow a greater number
- Reinstate the Credit-Linked Subsidy Scheme under the Pradhan Mantri Awas Yojana (PMAY).
   This scheme for EWS/LIG households, which lapsed in 2022, ought to be revived to encourage first-time

CIN: L24239HR1984PLC040797

purchasers of budget homes. It would also encompass loans for new construction or the addition of critical amenities such as kitchens and bathrooms to existing residences. Under PMAY (Rural), subsidies may facilitate the transformation of 'kaccha' dwellings into 'pucca' residences, contingent upon meeting.

## **▶** Infrastructure Investments:

- **Urban Infrastructure Fund**: Rs.1 lakh crore Urban Challenge Fund aims to enhance urban infrastructure, including public transport systems, roads, and utilities. This infrastructure boost will make certain urban areas more attractive for both residential and commercial investments. Cities with improved infrastructure tend to see a rise in property demand, which benefits developers and investors.
- **Smart City Projects:** The focus on smart cities under the budget will create better urban spaces with advanced technologies for living and working. This will drive demand for modern homes and commercial spaces, particularly in emerging cities or urban hubs.
- Focus on Sustainability and Green Building: The budget emphasizes eco-friendly construction and sustainable housing, with developers encouraged to adopt green building practices. Tax incentives for using renewable energy and water-saving technologies will make green buildings more attractive to investors and homebuyers. As sustainability becomes a greater priority, there could be an uptick in demand for environmentally conscious properties.
- ▶ Increased Focus on Tier-2 and Tier-3 Cities: The budget's emphasis on smart city projects and infrastructure development will likely drive growth in smaller cities (Tier-2 and Tier-3). As these cities become more connected and develop better infrastructure, demand for residential and commercial properties in these regions will rise. This could help ease the pressure on over-saturated metro markets, offering more affordable housing options and opportunities for developers.
- ► Commercial Real Estate Growth: The government's plans for urbanization and infrastructure upgrades are likely to benefit commercial real estate. Office spaces, especially those designed to be flexible and techfriendly, could see increased demand from companies and startups. Developers may focus on building business parks, office buildings, and co-working spaces in cities that are experiencing infrastructure upgrades. Additionally, with improved public infrastructure, logistics and warehousing will likely expand, benefiting the commercial segment further.

Lastly, The Union Budget 2025 has a mix of measures that are likely to stimulate demand, boost infrastructure development, and attract investment in the Indian real estate sector. The focus on affordable housing, tax relief for both buyers and developers, sustainability in construction, and improved urban infrastructure is expected to drive growth in both residential and commercial markets. As the sector continues to benefit from these policies, real estate is poised to remain a critical asset class in India's economic growth story. One of the biggest game changing policy implementation was the introduction of the Real Estate (Regulation and Development) Act (RERA)) which has put a semblance of order in the real estate sector by boosting investor confidence and streamlining the builder response by framing their responsibilities and duties. Moreover, foreign investors who are watching the Indian real estate market have also witnessed how the Indian housing trends are changing in favour of urban dwellings. The resurgent middle class has also led to a boom in the demand for urban housing. In addition, this is not just limited to the metros. It has spread to tier two and tier three towns as well. The returns and margins are so good in Indian real estate that many global institutional investors are now eying the Indian real estate market like never before. The government's move to allow 100% FDI in construction, and development projects has also boosted the investors' confidence in the sector.

#### 6. OPPORTUNITIES AND CHALLENGES

## **Opportunities**

The real estate sector is one of the best sector to invest in in the financial year 2024-25 in India is experiencing a phase of transformation and consolidation, driven by regulatory changes and government reforms such as the Real Estate Regulatory Authority (RERA) and the Affordable Housing Program. These initiatives are designed to increase transparency, improve regulatory oversight, and provide affordable housing to the masses. The sector is expected to benefit from India's growing urban population and increasing demand for commercial real estate, particularly from the BPO and IT industries. Despite facing challenges like financing issues and project delays, the long-term prospects for the real estate market in India remain strong, supported by governmental efforts to improve the sector's framework. The Indian real estate sector has witnessed substantial growth and investment in recent years.

As India awaits policy reforms to pick up speed, your Company firmly believes that the demand for Real Estate in a country like India should remain strong in the medium to long term. Your Company has well accepted brand, contemporary architecture, well-designed projects in strategic locations, strong balance sheet and stable financial performance even in testing times make it a preferred choice for Customers and shareholders. Your company is ideally placed to further strengthen its development potential by acquiring new land parcels.

Leading real estate experts remain **cautiously optimistic** about India's property sector in 2025. While broad-based growth of **6% to 6.5%** in home prices is expected, the momentum is increasingly driven by premium buyers and infrastructure-led segments. Middle-class affordability is improving modestly—hundreds of thousands may benefit from interest rate shifts and incentives—but **affordable-housing supply remains tight.** Commercial real estate continues to attract institutional capital, and **smaller cities are emerging as growth engines**. That said, potential oversupply in certain zones and weakening luxury demand remain key risks. Here are some of the key investments and developments:-

- a) **Rental Housing & Co-living Models:** Co-living and co-working spaces are gaining popularity in India, especially in urban areas. Developers who focus on this segment can cater to the growing demand for flexible and affordable living and working spaces.
- b) **Affordable Housing:** The affordable housing segment is a significant opportunity in the Indian real estate sector. The government's focus on providing "Housing for All" by 2022 has created a huge demand for affordable housing. Developers who focus on this segment can benefit from government incentives and tax breaks.
- c) Real Estate Investment Trusts (REITs): REITs have been introduced in India to provide investors with an opportunity to invest in the Indian real estate market. Developers can benefit from REITs by monetizing their assets and attracting long-term investors.
- d) **Technology-Enabled Real Estate Services:** Technology is playing an increasing role in the Indian real estate sector, with the development of online property portals, virtual property tours, and digital marketing. Developers who adopt technology can improve their marketing efforts and attract a wider audience.
- e) **Commercial & Office Real Estate in Select Metros:** India's office real estate sector in 2025 offers high-growth, institutional-grade opportunities—especially through REITs, green-certified Grade A buildings, and flexible workspace formats—in cities dominating GCC demand and corporate expansion.
- f) Data Centers, Warehousing, and Industrial Parks: India's industrial and logistics real estate landscape

MEW IME

in 2025 is rich with opportunity—driven by strong demand in warehousing (especially Grade-A), accelerated growth in Tier-2/3 cities, expanding industrial parks, and emerging data-centre infrastructure in strategic regions like Chennai. Investors and developers tapping into these trends can expect resilient, long-term value

- g) **Green & ESG-Compliant Buildings:** Green and ESG-compliant buildings in India are not just a niche trend—they're now a **strategic cornerstone** across real estate in 2025. For investors, developers, and occupiers, they offer compelling advantages: **premium rental income, brand value, lower operating costs, ESG risk management,** and access to incentive frameworks and emerging financing.
- h) **Vacation & Retirement Homes in Scenic Locations:** The vacation and retirement home segment in scenic Indian locales presents a powerful blend of lifestyle appeal and financial potential. With steady rental yields, appreciation driven by tourism, strong NRI/HNI interest, and growing developer sophistication, this sector is firmly established as a strategic, long-term investment avenue in 2025
- i) Luxury Housing for NRIs and HNIs: Luxury housing in India's key metros is booming in 2025—driven by affluent Indian buyers, especially NRIs and HNIs—who are gravitating toward premium offerings with technology-enabled, lifestyle-centric, and branded amenities in elite neighborhoods. Demand remains robust despite broader market cooling, positioning luxury real estate as a favored refuge for capital and lifestyle stability

Overall, the Indian real estate sector offers significant opportunities for developers, investors, and home-buyers. Developers who focus on affordable housing, commercial real estate, co-living and co-working spaces, and adopt technology can benefit from the growing demand in these segments. Investors can benefit from the potential returns from the Indian real estate market through REITs.

#### **Challenges**

- a) **Regulatory Environment:** India's real estate industry has historically been characterized by a lack of transparency and weak regulations. This has led to fraudulent practices such as delayed project completion, misappropriation of funds, and conflicts between developers and buyers.
- b) **Land Acquisition:** Land acquisition is a major challenge for real estate development in India. The process is complicated, time-consuming, and often leads to disputes between developers, landowners, and government authorities.
- c) **Financing:** Access to financing is another major challenge for real estate developers in India. Banks are often hesitant to lend to the industry due to high levels of default risk, and interest rates can be prohibitively high.
- d) **Construction Delays:** Delays in project completion are a common problem in the Indian real estate industry. This can be due to a variety of factors, including delays in obtaining approvals, shortage of skilled labour, and supply chain disruptions.
- e) **High Inventory Levels:** Oversupply of properties in some markets has led to a build up of inventory, which has resulted in lower prices and lower demand.
- f) **Lack of Professionalism:** The Indian real estate industry is often criticized for a lack of professionalism, with developers often failing to deliver on promises and providing poor customer service.
- g) **Lack of Infrastructure:** Lack of infrastructure, including roads, water, and electricity, is a major challenge for real estate developers in many parts of India. This can make it difficult to attract buyers and tenants.
- h) Signs of Over-Supply & Bubble Risks in Cities: India's real estate market in 2025 is exhibiting signs of

## CIN: L24239HR1984PLC040797

oversupply and potential bubble risks, particularly in major cities like Bengaluru, Delhi NCR, and Mumbai. Developers have aggressively launched new projects, but demand is not keeping pace.

- i) **Luxury Segment Pressure:** The luxury housing market in India remains buoyed by wealthy segment demand, but rising unsold inventory and a shift toward cautious investor sentiment signal growing pressure in the segment. Oversupply amid cooling demand could temper near-term returns and slow sales velocity despite earlier market exuberance.
- j) Macroeconomic & Inflationary Constraints: Inflation and macroeconomic forces—including high construction costs, undervalued supply, and still-elevated borrowing rates—are weighing on real estate affordability and demand. While growth remains steady, these headwinds require structural reforms beyond monetary easing.

The Company addresses these risks through a well structured framework which identifies desired controls and assigns ownership to monitor and mitigate the risks.

#### 7. STRENGTHS

Your Company continues to capitalize on the market opportunities by leveraging its key strengths. These include:

- a) **Brand Reputation:** Enjoys higher recall and influences the buying decision of the customer. Strong customer connects further results in higher premium realizations.
- b) **Execution:** Possesses a successful track record of quality execution of projects with contemporary architecture.
- c) **Strong cash flows:** Has built a business model that ensures continuous cash flows from their investment and development properties ensuring a steady cash flow even during the adverse business cycles.
- d) **Significant leveraging opportunity:** Follows conservative debt practice coupled with enough cash balance which provides a significant leveraging opportunity for further expansions.
- e) **Outsourcing:** Operates an outsourcing model of appointing globally renowned architects/contractors that allows scalability and emphasizes contemporary design and quality construction a key factor of success.
- f) **Transparency:** Follows a strong culture of corporate governance and ensures transparency and a high level of business ethics.

## 8. THREATS/RISK

## **▶** Political uncertainty

From the cold war period, maximum developing countries are feeling the threat of global polarization. Although, the threats are not visible but there is an undercurrent of uncertainty looming around real estate. The change of leadership affects heavily on the taxation system which has direct link to real estate sector. When the throne gets shifted to another leader, the economic environment gets influenced. Sometime, the new leadership may halt the taxation reforms inducted by his previous leader. Tread war between countries are also another bigger threat to the real estate companies.

## ▶ Interest rate

When interest rates rise, it has firm impact on residential real estate markets. This rise will reduce the demand of new home among the customers and in this way; the real estate industry goes dry. The prices of the homes get elevated and in this way, they won't affordable as before. The growth of interest rate will

## CIN: L24239HR1984PLC040797

reduce the demand of homes among potential customers.

## **▶** Economy and housing affordability

When the economy goes down, the affordability of the home goes up. In this way, the budget of the home get increased which has a direct negative impact on the customer purchase power. Once, the affordability of the homes gets reduced; customers will feel the heat and they will halt their plan to purchase new homes.

## ► Change of demography

Change of demography also impacts negatively on the real estate market. When the demands of homes get increased for certain demographic division, the prices get automatically elevated. On the other hand, if the demands get decreased, the prices get decreased too.

## ► Loss of middle class society

At the present time, in developing countries, there is a huge drop of middle class society. Needless to mention, this class is known as the potential consumer of real estate market.

## **▶** Troubled Technology

Presently, there is a huge adoption of technology in the reality sector. These are including robotic, AI, driver less cars, high speed and sophisticated communication systems are reducing the demand of mega structure homes and increasing the living of capsule homes.

#### Natural Disaster

Housing is always a matter of several thousands of dollars. Once the home gets destroyed with natural disaster, the owner may not able to build another one. This is the main reason for which, the demand of homes get decreased specially in disaster prone areas.

## ► Energy and water crisis

Energy is the backbone of life. While going to choose a perfect home, owners first check whether that area sufficient supply of energy and water or not. If there is any shortage of water or energy, the plan for purchasing home get turned down.

## **▶** Infrastructure

All most all the home owners prefer to purchase their homes in highly developed areas. Cities are the first choice for purchasing homes. However, if there is poor infrastructure, people won't agree to purchase the homes in those areas.

## **▶** Immigration

Immigration issue is always looming as a biggest threat to the home buyers. There are several countries like USA those have laws to oust foreigners. If a foreigner is not sure about his future, why they will invest on housing? This is the main reason for which, real estate sector face threat from these kinds of laws.

# 9. SEGMENT WISE PERFORMANCE

The Company deals in only one segment i.e. Real Estate. Therefore, it is not required to give segment wise performance.

# **Independent Auditor's Report**

To the Members of Newtime Infrastructure Limited Report on the Standalone Ind AS Financial Statements

## **Opinion**

- 1. We have audited the accompanying standalone Ind AS financial statements of Newtime Infrastructure Limited ('the Company'), which comprise the balance sheet as at March 31, 2025, the statement of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as "standalone Ind AS financial statements").
- 2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs of the Company as at March 31, 2025, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

## **Basis for Opinion**

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Emphasis of matter**

- 4. (a). As disclosed in note no. 34 to the accompanying financial statement, certain immovable properties held in the name of the Company, its subsidiary and associate and shares held by the promoter Company in them have been provisionally attached by the Deputy Director, Gurugram Zonal office, Directorate of Enforcement, New Delhi in alleged contravention of Violation under Prevention Laundering Act, 2002 vide order no. 09/2024 dated 13.09.2024. As per the information provided by the management, the said Order does not have impact on the business or running operations of the Company. The financial impact of the order, if any, is not ascertainable.
  - (b). Trade payables, trade receivables and other loans and advances given or taken are subject to reconciliation and confirmation.

Our report is not modified in respect of above-mentioned matter.

## Key audit matters

- 5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
- 6. We have no matter other than those described Emphasis of Matter section to communicate in our audit report.

CIN: L24239HR1984PLC040797

## Information other than the financial statements and auditor's report thereon

7. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Management's responsibilities for the standalone financial statements

- 8. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
- 9. In preparing the standalone financial statements, Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
- 10. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibilities for the audit of the standalone financial statements

- 11. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.
- 12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

## CIN: L24239HR1984PLC040797

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 13. Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.
- 14. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- 15. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- 16. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other legal and regulatory requirements

17. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the 'Annexure A', a

 $statement \, on \, the \, matters \, specified \, in \, paragraphs \, 3 \, and \, 4 \, of \, the \, Order, to \, the \, extent \, applicable.$ 

- 18. As required by Section 143 (3) of the Act, we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters as stated in the paragraph (i)(vi) below on reporting under Rule 11(g);
  - c) The Balance Sheet, the Statement of profit and loss including Other comprehensive income, Statement of changes in equity and the Statement of cash flows dealt with by this Report are in agreement with the books of account;
  - d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
  - e) On the basis of the written representations received from the directors as on March 31, 5 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 5 from being appointed as a director in terms of Section 164 (2) of the Act;
  - f) The modification relating to the maintenance of accounts are as stated in the paragraph (b) above on reporting under section 143(3)(b) and paragraph (i) (vi) below on reporting under Rule 11(g);
  - g) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in 'Annexure B' to this report;
  - h) In our opinion, the managerial remuneration for the year ended March 31, 2025 has been paid/provided by the company to its directors in accordance with the provisions of section 197(16) of the Act, as amended;
  - i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Company does not have any pending litigations on its financial position in its Financial Statements;
    - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
    - iii. There were no amounts which were required to be transferred to the Investor Education and Protection fund by the Company during the year ended March 31, 2025.
    - iv. The Management has represented that, to the best of its knowledge and belief:
      - a) No funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate

Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- b) No funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. During the year the Company has not declared any dividend.
- vi. The Ministry of Corporate Affairs (MCA) has mandated that, with effect from 1st April, 2023, every company which uses accounting software for maintaining its books of account shall use software having a feature for recording an audit trail (edit log) of all transactions, capturing changes along with the date of such changes, and ensuring that the audit trail cannot be disabled.

During the course of our audit, we observed that the Company does not maintain an adequate audit trail for certain financial transactions. Specifically, we were unable to obtain sufficient appropriate audit evidence regarding the completeness and accuracy of records for [specify area, e.g., cash disbursements, journal entries, inventory movements], due to the absence of a structured audit trail system.

The lack of an audit trail significantly impairs the ability to trace transactions from initiation to recording in the financial statements, thereby limiting our ability to perform effective audit procedures. This deficiency increases the risk of undetected errors or fraud and is not in accordance with sound accounting practices and internal control requirements

Consequently, we were unable to determine whether any adjustments might be necessary in respect of the affected financial statement items and related disclosures.

## Annexure "B" to the Independent Auditor's Report

Report on the Internal financial controls under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Newtime Infrastructure Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

#### Management's Responsibility for internal financial controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' responsibilities

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### Meaning of internal financial controls over financial reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on audit of Internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India.

The standalone financial statements were approved by the Board of Directors and authorised for issue on May 30, 2025.

#### 2.2 Basis of preparation of Financial statements

These financial statements are prepared in accordance with Indian Accounting Standards (IND AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act , 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The IND AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued Indian accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hithertoin use.

#### 2.3 Use of Estimates

The preparation of the financial statements in conformity with IND AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

#### 2.3.1 Provisions and contingent liabilities

A provision is recognized when the company has a present obligation as a result of past event and it is probable than an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. Contingent liabilities are not recognized or disclosed in the financial statements. A contingent asset is neither recognized nor disclosed in the

financial statements.

#### 2.3.2 Recent Accounting Pronouncements

The Ministry of Corporate Affairs (MCA) notifies new standards and amendments to existing standards under the Companies (Indian Accounting Standards) Rules, as amended from time to time.

Ind AS 117 – Insurance Contracts and amendments to Ind AS 116 – Leases (relating to sale and leaseback transactions) were notified and are effective from April 1, 2024. The Company has evaluated the applicability of these pronouncements and concluded that there is no significant impact on its financial statements for the year ended March 31, 2025.

On May 9, 2025, the MCA notified amendments to Ind AS 21 – The Effects of Changes in Foreign Exchange Rates. These amendments provide enhanced guidance on assessing currency exchangeability and estimating exchange rates when exchangeability is lacking. The amendments are effective for annual periods beginning on or after April 1, 2025. The Company is currently assessing the potential impact of these amendments on its financial statements.

#### 2.3.3 Impairment of Assets

#### 2.3.3.1Financial assets (other than at fair value)

The company assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The company recognizes lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction.

#### 2.3.3.2 Non-financial assets

#### Property, Plant & equipment and Intangible Assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is an indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value in - use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit or loss. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss.

#### 2.4 Income Taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

[All amounts are in rupees lakh, except share data and earnings per share]

The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

#### 2.5 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation /amortization and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The cost of property, plant & equipment also includes initial estimates of dismantling cost and restoring the site to its original position, on which the site is located.

Freehold land is measured at cost and is not depreciated.

Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred.

Interest cost incurred is capitalised up to the date the asset is ready for its intended use for qualifying assets, based on borrowings incurred specifically for financing the asset or the weighted average rate of all other borrowings, if no specific borrowings have been incurred for the asset.

Depreciation is provided on the Straight Line Method (SLM) over the estimated useful lives of the assets considering the nature, estimated usage, operating conditions, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support. Taking into account these factors, the Company has decided to retain the useful life hitherto adopted for various categories of property, plant and equipments, which are different from those prescribed in Schedule II of the Act.

Estimated useful lives of assets are as follows:

Type of Asset	Estimated useful life (years)
Computer and IT equipment	3 Years
Vehicles	10 Years

The useful lives are reviewed at each year end. Changes in expected useful lives are treated as change in accounting estimates.

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use.

An item of property, plant and equipment is derecognized on disposal. Any gain or loss arising from derecognition of an item of property, plant and equipment is included in the statement of profit and loss.

## 2.6 Lease

Payment made towards short term leases (leases for which non-cancellable term is 12 months or lesser) and low value assets are recognised in the statement of Profit and Loss as rental expenses over the tenor of such leases.

#### 2.7 Financial Instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### **Financial assets**

#### Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

### **Subsequent measurement**

For purposes of subsequent measurement, financial assets are classified in four categories:

- ► Debt instruments at amortised cost
- ► Debt instruments at fair value through other comprehensive income (FVTOCI)
- ► Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- ► Equity instruments measured at fair value through other comprehensive income (FVTOCI)

#### Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

#### **Debt instrument at FVTOCI**

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI).

#### **Debt instrument at FVTPL**

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or

eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of Profit and Loss.

#### **Equity investments**

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of Profit and Loss.

#### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- ► The rights to receive cash flows from the asset have expired, or
- ► The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

#### Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets. The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk.

CIN: L24239HR1984PLC040797

Summary of significant accounting policies and other explanatory information forming part of the standalone financial statements for year ended 31st March 2025

[All amounts are in rupees lakh, except share data and earnings per share]

Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- ► All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- ► Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the statement of Profit and Loss.

#### Financial liabilities

#### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, trade and other payables. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including cash credit and financial guarantee contracts.

#### **Subsequent measurement**

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Summary of significant accounting policies and other explanatory information forming part of the standalone financial statements for year ended 31st March 2025

[All amounts are in rupees lakh, except share data and earnings per share]

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value through Statement of profit and loss.

#### Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

#### 2.8 Borrowings

Preference Shares are separated into equity and liability components based on the terms of the issue / contract. On issuance of the preference shares, the fair value of the liability component is determined using a market rate for an equivalent instrument. This amount is classified as financial liability and it is measured at amortized cost method until it is extinguished on conversion or redemption. The reminder of the proceeds is recognized and included in equity component is not re-measured in subsequent years.

#### 2.9 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimated, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions determined by discounting the expected future cash flow at a pre-tax rate that reflects current market assessment of the time value of money and the risk specified to the liability.

#### 2.10 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivables. Amounts disclosed as revenue are exclusive of taxes and net of returns, trade allowances, rebates, discounts and value added taxes.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured regardless of when the payment is being made. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each agreement.

All expenses and income are accounted on accrual basis.

#### 2.11 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

CIN: L24239HR1984PLC040797

Summary of significant accounting policies and other explanatory information forming part of the standalone financial statements for year ended 31st March 2025

[All amounts are in rupees lakh, except share data and earnings per share]

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is Unobservable

For assets and liabilities that are recognized in the Consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period or each case.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- \* Disclosures for valuation methods, significant estimates and assumptions
- \* Quantitative disclosures of fair value measurement hierarchy
- \* Investment in unquoted equity shares
- \* Financial instruments

## 2.12 Depreciation & amortization

The company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. Depreciation on additions/deductions to property, plant and equipment is provided on pro-rata basis from the date of actual installation or up to the date of such sale or disposal, as the case may be.

## 2.13 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the

company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

#### 2.14 Cash and Cash Equivalent

Cash and Cash equivalent comprise cash in hand and demand deposits, together with other short term, highly liquid investment that are readily convertible into known amounts of cash and which are subject to an in significant risk of changes in value.

#### 2.15 Employee Benefit Expenses

#### **Short-Term Employee Benefits**

Short - term employee benefits include performance incentive, salaries & wages, bonus and leave travel allowance. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the services

#### Long - Term Employee Benefits

The liability for gratuity & leave encashment is determined using Projected Unit Credit [PUC] Method and is accounted for on the basis of actuarial valuation in Accordance with IND AS - 19. The company recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Actuarial Gains and losses through re-measurements of the net defined benefit liability/ (asset) are recognized in other comprehensive income. The current service cost is included in the employee benefit expense in the statement of profit & loss account. The interest cost calculated by applying the discount rate to the net balance of defined benefit obligation, is included in the finance cost in the statement of profit & loss account.

#### 2.16 Assets Held for Sale

Non-current assets or disposal group are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met.

#### 2.17 Cash Flow Statement

Cash flow are reported using indirect method set out in Ind AS-7 on cash flow statement, expect in case of dividend which is considered on the basis of actual movement of cash with corresponding adjustments of assets and liabilities and where by profit for the period is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items in income or expenses associated with investing or financial cash flow. The cash flow from operating, investing and financing activities of the company are segregated.

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. The sensitivity analyses are based on a change in a significant assumption, keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation from one another.

Carrying value of all financial assets and liabilities is approximately equal to the fair value maturity period for all liabilities.

#### Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

## **Independent Auditor's Report**

To the Members of Newtime Infrastructure Limited Report on the Consolidated Ind AS Financial Statements

#### **Opinion**

- 1. We have audited the accompanying Consolidated Financial Statements of Newtime Infrastructure Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") comprising of the consolidated Balance sheet as at March 31 2025, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").
- 2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2025, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

#### **Basis for Opinion**

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section' of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

#### **Emphasis of matter**

- 4. As disclosed in note no.45 to the accompanying financial statement, certain immovable properties held in the name of the Company, its subsidiary and associate and shares held by the promoter Company in them have been provisionally attached by the Deputy Director, Gurugram Zonal office, Directorate of Enforcement, New Delhi in alleged contravention of Violation under Prevention Laundering Act, 2002 vide order no. 09/2024 dated 13.09.2024. The order relates to the provisional attachment of the Group's demat accounts, freezing of Group's bank account and land. As per the information provided by the management, the said Order does not have impact on the business or running operations of the Company. The financial impact of the order, if any, is not ascertainable.
- 5. Trade payables, trade receivables and other loans and advances given or taken are subject to reconciliation and confirmation.
- 6. We draw attention to the matter reported in the audit report dated May 29, 2025 issued by the other auditor on the standalone financial statement of Pluto Biz Developers Private Limited, a subsidiary which describes that its other financial assets and other financial liabilities are subject to reconciliation and confirmation.
- 7. We draw attention to the matter reported in the audit report dated May 29, 2025 issued by the other auditor on

CIN: L24239HR1984PLC040797

the standalone financial statement of Wintage Infra Height Private Limited, a subsidiary which describes that its non-current assets, other financial assets and other current financial liabilities are subject to reconciliation and confirmation.

- 8. We draw attention to the matter reported in the audit report dated May 29, 2025 issued by the other auditor on the standalone financial statement of Kashish Projects Private Limited, a fellow subsidiary which describes that its other current assets and financial liabilities are subject to reconciliation and confirmation.
- 9. We draw attention to the matter reported in the audit report dated May 30, 2025 issued by the other auditor on the consolidated financial statement of Satelite Forging Private Limited, an associates which describes that its loans and advances and other recoverable and payables with vendors and other entities as at March 31, 2025, are subject to reconciliations and confirmations

Our report is not modified in respect of above-mentioned matters.

#### Key audit matters

- 10. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
- 11. We have no matters other than described in the Material uncertainty related to going concern section, Emphasis of Matter section and other matters section to communicate in our audit report.

#### Information other than the financial statements and auditor's report thereon

12. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

#### Management's responsibilities for the consolidated financial statements

13. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associates and joint ventures in accordance with the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The Holding Company's Board of Directors are also responsible for ensuring accuracy of records including

CIN: L24239HR1984PLC040797

MEW IME

financial information considered necessary for the preparation of consolidated Ind AS financial statements. Further, in terms of the provisions of the Act the respective Board of Directors of the companies included in the Group, and its associate companies and joint venture companies covered under the Act are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

- 14.. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
- The respective Board of Directors of the companies included in the Group is also responsible for overseeing financial reporting process of Group.

#### Auditor's Responsibilities for the audit of the consolidated financial statements

- 16. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
- 17. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - Identify and assess the risks of material misstatement of the consolidated financial statements, whether
    due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
    evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a
    material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
    involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls with reference to the consolidated financial statement in place and the operating effectiveness of such controls.
  - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
  - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related

CIN: L24239HR1984PLC040797

disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion
- 18. Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.
- 19. We communicate with those charged with governance of the Holding Company of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- 20. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- 21. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other matters**

22. We did not audit the financial statements of its 6 subsidiaries (including fellow subsidiaries) and 1 associate whose financial information reflect total assets (before consolidation) of Rs. 5507.18 lakhs as at March 31, 2025, total revenues (before consolidation adjustments) of Rs. 132.69 lakhs, total net loss (before consolidation adjustments) after tax of Rs.135.81 lakhs, and total comprehensive loss (before consolidation adjustments) after tax of Rs. 135.81 lakhs for the year ended March 31, 2025, as considered in the consolidated financial statement. The consolidated financial statements also include Group's share of net profit of Rs. 11.06 lakhs and Group's share of total comprehensive profit of Rs. 11.06 lakhs for the year ended March 31, 2025 of an associate, whose financial statement has not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries (including fellow subsidiaries) and associate are based solely on the reports of the other auditors.

CIN: L24239HR1984PLC040797

Our report is not modified in respect of the above-mentioned matter.

We did not audit the financial information of one subsidiary, whose financial information reflect total assets (before consolidation) of Rs. 190.49 lakhs as at March 31, 2025, total revenues (before consolidation adjustments) of Rs. Nil lakhs, total net loss (before consolidation adjustments) after tax of Rs.1.81 lakhs, and total comprehensive loss (before consolidation adjustments) after tax of Rs. 1.81 lakhs for the year ended March 31, 2025, as considered in the consolidated financial statement. This financial information is unaudited and have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the aforesaid subsidiary, is based solely on such unaudited financial information. In our opinion and according to the information and explanations given to us by the management, this financial information is not material to the Group.

Our report is not modified in respect of the above mentioned matter.

### Report on Other legal and regulatory requirements

23. As required by clause (xxi) of paragraph 3 of Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act based on the consideration of the Order reports issued till date by us, and by the respective other auditors as mentioned in paragraph 16 above, of companies included in the consolidated financial statements for the year ended 31 March 2025 and covered under the Act we report that: Following are the adverse remarks reported by us and the other auditors in the Order reports of the companies included in the consolidated financial statements for the year ended 31 March 2025 for which such Order reports have been issued till date and made available to us:

reporting under section 143(3)(b) and paragraph (i) (vi) below on reporting under Rule 11(g);

- g) With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in 'Annexure B' to this report;
- h) In our opinion, the managerial remuneration for the year ended March 31, 2025 has been paid/provided by the group to its directors in accordance with the provisions of section 197(16) of the Act, as amended;
- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Group has disclosed the impact of pending litigations on its consolidated financial position in its consolidated Financial Statements, if any;
  - ii. The Group has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection fund by the Holding Company and its subsidiaries during the year ended March 31, 2025.
  - iv. The respective management has represented that, to the best of its knowledge and belief:
    - a) No funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or its subsidiaries or to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or its subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
    - b) No funds (which are material either individually or in the aggregate) have been received by the Holding Company or its subsidiaries from any person(s) or entity (ies), including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or its subsidiaries shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
    - c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
  - v. The Holding Company and its subsidiaries have not declared or paid any dividend during the year.
  - vi. The Ministry of Corporate Affairs (MCA) has mandated that, with effect from 1st April, 2023, every company which uses accounting software for maintaining its books of account shall use software having a feature for recording an audit trail (edit log) of all transactions, capturing changes along with the date of such changes, and ensuring that the audit trail cannot be disabled.

CIN: L24239HR1984PLC040797

During the course of our audit, we observed that the Company does not maintain an adequate audit trail for certain financial transactions. Specifically, we were unable to obtain sufficient appropriate audit evidence regarding the completeness and accuracy of records for [specify area, e.g., cash disbursements, journal entries, inventory movements], due to the absence of a structured audit trail system.

The lack of an audit trail significantly impairs the ability to trace transactions from initiation to recording in the financial statements, thereby limiting our ability to perform effective audit procedures. This deficiency increases the risk of undetected errors or fraud and is not in accordance with sound accounting practices and internal control requirements.

Consequently, we were unable to determine whether any adjustments might be necessary in respect of the affected financial statement items and related disclosures.

# Annexure "B" to the Independent Auditor's Report

# Report on the Internal financial controls under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Newtime Infrastructure Limited (hereinafter referred to as "Holding Company"), as of and for the year ended March 31, 2025, we have audited the internal financial controls over financial reporting of the Holding Company and its subsidiaries which are companies incorporated in India, as of that date.

### Management's Responsibility for internal financial controls

The respective Board of Directors of the Company and its subsidiaries are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' responsibilities

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Group based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidences obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiaries.

### Meaning of internal financial controls over financial reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Group; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with

CIN: L24239HR1984PLC040797

generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the Group; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Group's assets that could have a material effect on the financial statements.

#### Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the Company and its subsidiaries, which are the companies incorporated in India have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on audit of Internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India.

#### **Other Matters**

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to the Consolidated Financial Statements, in so far as it relates to six subsidiaries (including fellow subsidiaries) and an associate, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies. In respect of one subsidiary incorporated in India, no separate report on internal financial controls has been issued as the financial statements of the said subsidiary have not been audited by its statutory auditor.

Our opinion is not modified in respect of this matter.

### 2.2 Basis of preparation of Consolidated financial statements

Newtime infrastructure limited consolidates entities which it owns or controls. The Consolidated financial statements comprise the financial statements of the Company, its controlled subsidiaries and associates. Control exists when the parent has power over the entity, is exposed, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

The financial statements of the Group companies are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at

the Group. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the Company, are excluded.

#### 2.3 Current versus non-current classification

All assets and liabilities are classified into current and non-current.

#### **Assets**

An asset is classified as current when it satisfies any of the following criteria: it is expected to be realized in, or is intended for sale or consumption in, the Group's normal operating cycle;

- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

#### Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Group's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting period; or
- the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include the current portion of non current financial liabilities. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

#### 2.4 Use of Estimates

The preparation of the Consolidated financial statements in conformity with IND AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the Consolidated financial statements and reported amounts of revenues and expenses during the period. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the Consolidated financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the Consolidated financial statements.

### 2.4.1 Provisions and contingent liabilities

A provision is recognized when the Group has a present obligation as a result of past event and it is probable than an outflow of resources will be required to settle the obligation, in respect of which a

reliable estimate can be made. Provisions are discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. Contingent liabilities are not recognized or disclosed in the Consolidated financial statements . A contingent asset is neither recognized nor disclosed in the Consolidated financial statements .

#### 2.4.2 Impairment of Assets

#### 2.4.2.1 Financial assets (other than at fair value)

The Group assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Group recognizes lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction.

#### 2.4.2.2 Non-financial assets

Property, Plant & equipment and Intangible Assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is an indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value in - use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit or loss. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss.

#### 2.4.2.3 Impairment of Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a Cash Generating Unit (CGUs) is less than its carrying amount. For the impairment test, goodwill is allocated to the CGU or groups of CGUs which benefit from the synergies of the acquisition and which represent the lowest level at which goodwill is monitored for internal management purposes. The recoverable amount of CGUs is determined based on higher of value-in-use and fair value less cost to sell. Key assumptions in the cash flow projections are prepared based on current economic conditions and comprises estimated long term growth rates, weighted average cost of capital and estimated operating margins.

#### 2.5 Income Taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Consolidated financial statements . Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

#### 2.6 Business combination and Goodwill

Business combinations have been accounted for using the acquisition method under the provisions of Ind AS 103, Business Combinations.

The purchase price in an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Group. The purchase price also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition. Contingent consideration is remeasured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognized in the Consolidated Statement of Profit and Loss.

The interest of non-controlling shareholders is initially measured either at fair value or at the non-controlling interests proportionate share of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by acquisition basis. Subsequent to acquisition, the carrying amount of noncontrolling interests is the amount of those interests at initial recognition plus the non-controlling interests'

share of subsequent changes in equity of subsidiaries.

The control is accounted for at carrying value of the assets Business combinations between entities under common acquired and liabilities assumed in the Group's consolidated financial statements.

The payments related to options issued by the Group over the non-controlling interests in its subsidiaries are accounted as financial liabilities and initially recognized at the estimated present value of gross obligations. Such options are subsequently measured at fair value in order to reflect the amount payable under the option at the date at which it becomes exercisable In the event that the option expires unexercised, the liability is derecognized.

#### Acquisition

During the previous year, the Group, completed four business combinations by acquiring majority voting interests in the following companies:

- (i) Aertha luxury homes private limited on 16th February 2024 and 97.50% voting interest,
- (ii) Mverx Technologies private limited on 14th March 2024 and 100% voting interest,
- (iii) Neoville Developers private limited on 14th March 2024 and 100% voting interest,
- (iv) Kashish project private limited on 16th February 2024 and 100% voting interest,

These acquisitions are expected to strengthen the Group's presence in real estate and hospitality businesss and enhance the profitability in future

#### 2.7 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation /amortization and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The cost of property, plant & equipment also includes initial estimates of dismantling cost and restoring the site to its original position, on which the

site is located.

Freehold land is measured at cost and is not depreciated.

Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred.

Interest cost incurred is capitalised up to the date the asset is ready for its intended use for qualifying assets, based on borrowings incurred specifically for financing the asset or the weighted average rate of all other borrowings, if no specific borrowings have been incurred for the asset.

Depreciation is provided on the Straight Line Method (SLM) over the estimated useful lives of the assets considering the nature, estimated usage, operating conditions, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support. Taking into account these factors, the Group has decided to retain the useful life hitherto adopted for various categories of property, plant and equipments, which are different from those prescribed in Schedule II of the Act.

Estimated useful lives of assets are as follows:

Type of Asset	Estimated useful life (years)
Computer and IT equipment	3 Years
Vehicles	10 Years
Plant and Machinery	10 Years
Office equipment	5 Years
Furniture and fixtures	8-10 Years

The useful lives are reviewed at each year end. Changes in expected useful lives are treated as change in accounting estimates.

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use.

An item of property, plant and equipment is derecognized on disposal. Any gain or loss arising from derecognition of an item of property, plant and equipment is included in the statement of profit and loss.

### 2.8 Other intangible assets

### i) Initial recognition

Intangible assets acquired separately are measured on initial recognition at cost. The cost comprises purchase price and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Following initial recognition, intangible assets are carried at cost less any accumulated amortization.

#### ii) Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in the statement of profit and loss as incurred.

[All amounts are in rupees lakh, except share data and earnings per share]

#### iii) Others

Intangible assets are amortised on a straight-line basis over the estimated useful life not exceeding six years.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

#### 2.9 Capital work-in-progress

Cost of property, plant and equipment not ready for use as at the reporting date are disclosed as capital work-in-progress.

#### **2.10** Lease

Payment made towards short term leases (leases for which non-cancellable term is 12 months or lesser) and low value assets are recognised in the statement of Profit and Loss as rental expenses over the tenor of such leases.

#### 2.11 Financial Instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### Financial assets

#### Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

CIN: L24239HR1984PLC040797

Summary of significant accounting policies and other explanatory information forming part of the consolidated financial statements for year ended 31st March 2025

[All amounts are in rupees lakh, except share data and earnings per share]

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

#### **Debt instrument at FVTOCI**

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI).

#### **DebtinstrumentatFVTPL**

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Group has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of Profit and Loss.

#### **Equity investments**

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of Profit and Loss.

### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e. removed from the Group's balance sheet) when:

- ► The rights to receive cash flows from the asset have expired, or
- ► The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to

CIN: L24239HR1984PLC040797

Summary of significant accounting policies and other explanatory information forming part of the consolidated financial statements for year ended 31st March 2025

[All amounts are in rupees lakh, except share data and earnings per share]

pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

#### Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets. The Group follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- ► All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- ► Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the statement of Profit and Loss.

#### Financial liabilities

#### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, trade and other payables. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Group's financial liabilities include trade and other payables, loans and borrowings including cash credit and financial guarantee contracts.

#### **Subsequent measurement**

The measurement of financial liabilities depends on their classification, as described below:

#### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/loss are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Group has not designated any financial liability as at fair value through Statement of profit and loss.

### Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

### 2.12 Borrowings

Preference Shares are separated into equity and liability components based on the terms of the issue / contract. On issuance of the preference shares, the fair value of the liability component is determined using a market rate for an equivalent instrument. This amount is classified as financial liability and it is measured at amortized cost method until it is extinguished on conversion or redemption. The reminder of the proceeds is recognized and included in equity component is not re-measured in subsequent years.

#### 2.13 Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that is reasonably estimated, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions determined by discounting the expected future cash flow at a

[All amounts are in rupees lakh, except share data and earnings per share]

pre-tax rate that reflects current market assessment of the time value of money and the risk specified to the liability.

#### 2.14 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivables. Amounts disclosed as revenue are exclusive of taxes and net of returns, trade allowances, rebates, discounts and value added taxes.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured regardless of when the payment is being made. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each agreement.

• All expenses and income are accounted on accrual basis.

#### 2.15 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated Consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is Unobservable

For assets and liabilities that are recognized in the Consolidated Consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period or each case.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- \* Disclosures for valuation methods, significant estimates and assumptions
- \* Quantitative disclosures of fair value measurement hierarchy
- \* Investment in unquoted equity shares
- \* Financial instruments

#### 2.16 Depreciation & amortization

The Group depreciates property, plant and equipment over their estimated useful lives using the straight-line method. Depreciation on additions/deductions to property, plant and equipment is provided on prorata basis from the date of actual installation or up to the date of such sale or disposal, as the case may be.

#### 2.17 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the Consolidated financial statements by the Board of Directors.

#### 2.18 Cash and Cash Equivalent

Cash and Cash equivalent comprise cash in hand and demand deposits, together with other short term, highly liquid investment that are readily convertible into known amounts of cash and which are subject to an in significant risk of changes in value.

#### 2.19 Employee Benefit Expenses

### Short-Term Employee Benefits

Short - term employee benefits include performance incentive, salaries & wages, bonus and leave travel allowance. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the services.

#### Long - Term Employee Benefits

The liability for gratuity & leave encashment is determined using Projected Unit Credit [PUC] Method and is accounted for on the basis of actuarial valuation in Accordance with IND AS - 19. The Group recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Actuarial Gains and

losses through re-measurements of the net defined benefit liability/ (asset) are recognized in other comprehensive income. The current service cost is included in the employee benefit expense in the statement of profit & loss account. The interest cost calculated by applying the discount rate to the net balance of defined benefit obligation, is included in the finance cost in the statement of profit & loss account.

#### 2.20 Assets Held for Sale

Non-current assets or disposal group are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met.

#### 2.21 Cash Flow Statement

Cash flow are reported using indirect method set out in Ind AS-7 on cash flow statement, expect in case of dividend which is considered on the basis of actual movement of cash with corresponding adjustments of assets and liabilities and where by profit for the period is adjusted for the effects of transactions of noncash nature, any deferrals or accruals of past or future operating cash receipts or payments and items in income or expenses associated with investing or financial cash flow. The cash flow from operating, investing and financing activities of the Group are segregated.

Increase/(decease) on defined				
benefit obligation	0.11	1.12	(0.10)	(0.95)

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. The sensitivity analyses are based on a change in a significant assumption, keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation from one another.

### Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

 $Level \ 1 - Inputs \ are \ quoted \ prices \ (unadjusted) \ in \ active \ markets \ for \ identical \ assets \ or \ liabilities$ 

Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The management assessed that cash and cash equivalents, trade payables and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments

The Group is exposed to credit risk and liquidity risk. The Group's senior management overseas the Management of these risks. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

#### (A) Market risk:

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: Interest rate risk and currency risk. Financial instruments affected by market risk include loans and borrowings, deposits and payables/ receivables in foreign currencies.

#### -Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group has no such borrowings that carry fluctuating rate of interest and hence, not exposed to interest rate risk.

#### - Foreign currency risks

Foreign risk is the risk that the fair value of future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group is not dealing in foreign currency transaction therefore the Group is not exposed to foreign currency risks.

#### (B) Creditrisk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group's major financial assets represent investment, advances, trade receivables and balances with bank. The Group attempts to limit the credit risk by dealing with reputed banks only and dealing with parties post adequate diligence.

### (C) Liquidity risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure funds are available for use as per requirements. The Group's prime source of liquidity is cash and cash equivalents and the cash generated from operations. The Group has no outstanding bank borrowings.

### Note 38 Capital management

For the purpose of the Group's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Group. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group includes within net debt, interest bearing loans and borrowings less cash and cash equivalents.

#### **Note 41Segment information**

On the basis of nature of businesses, the Group has two reportable segments, as follows:

- Real estate and
- Hospatility

No operating segments have been aggregated to form the above reportable operating segments.

The Executive Management Committee monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the consolidated financial statements.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.
